

# Fesia Grasp S2

## Freedom in the palm of your hand

Soft wearable that helps you open and close your hand, enhancing everyday activities

# Fesia Grasp S2

Enabling **hand opening** and **closing** for people with a **neurological condition**, the device is designed to assist you in **your daily grasping activities**:

## Effortless hand control:

Open and close your hand with a single tap on the stimulator or with a sharp limb movement:

1

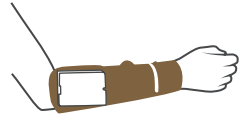

2

3

4

## Advanced features for an augmented user delight:

- Provides sequential **opening** and **closing of the hand** in an easy and simple way.
- Keeps your **palm free** for an easy engagement with everyday tasks and objects.
- **Optimal muscular selectivity** thanks to the multi-field electrode.
- A **long-lasting battery** to keep up with your lifestyle.
- Ensures a comfortable fit for everyone, with **different sizes** of garments and electrodes.
- So **lightweight**, you'll forget it's there.
